FOR IMMEDIATE RELEASE

Software Corporation International Appoints D. Keith Sides President

CHARLOTTE, NORTH CAROLINA, May 1, 2009 --- Michael D. Nash, Chairman of the Board of Software Corporation International (SCI), announced management changes for the IT Solutions and Services company today. D. Keith Sides, 53, has been appointed President, effective May 1, 2009.

Mr. Sides had been Chief Operating Officer since 2007 and a Director of the company since he joined the firm in 2000. In addition to his new role as President and Chief Operating Officer, he will become an equity partner in the firm. Thomas S. Rohrer, 61, who held the position of President since 1997 and is a co-founder of the firm, will assume new responsibilities as Chief Strategy Officer with a focus on strategic business development with emerging technologies.

Mr. Nash stated that these changes will allow the company to devote more time to strategic planning and growth of the firm while also recognizing the accomplishments of Mr. Sides. Mr. Rohrer stated that since its beginning, SCI has focused on item processing consulting for the financial industry and has become one of the leading firms that specialize in this sector. With SCI's extensive development and consulting resources, and by utilizing recent advances in payments technology, SCI believes that it is uniquely positioned to assist other businesses and industries such as healthcare payments in exploiting these recent advances.

Prior to joining SCI, Mr. Sides held various sales and executive positions with Unisys Corporation, Broadway & Seymour, and Recognition Equipment. Sides holds a BSBA degree from Appalachian State University and an AS degree in Engineering from Wingate University. Sides and his family are life-long residents of Concord, N.C.

About SCI

Software Corporation International (SCI), headquartered in Toledo, Ohio, was incorporated in 1990 and is one of world's largest and most experienced providers of payments technology consulting to the financial services markets. SCI is an Agent of International Business Machines (IBM) and provides sales, installation, and support responsibilities for the IBM Payment Systems Group.
