FOR IMMEDIATE RELEASE

Software Corporation International Announces Agent Relationship with IBM

CHARLOTTE, NORTH CAROLINA, February 12, 2007 --- Software Corporation International (SCI) announced today that it has entered into an agreement with IBM to become a Sales Agent for the IBM Payment Solutions organization. With this agreement, SCI will have sales responsibilities for IBM Payments Director solutions. Specific solutions covered under this agreement include Payments Director Business Rules, Payments Director Central Capture, Payments Director Gateway, and Payments Director Image Quality Analysis (IQA).

“We are excited about this agreement and the opportunity to expand our long term relationship with IBM, which began in 1990,” said D. Keith Sides, Group Vice President, SCI. “By leveraging our existing expertise and resources, we believe we will be able to provide immediate value to IBM and their clients,” added Sides.

Geoff Emerson, IBM Director Payment Solutions, commented “SCI has been a valued partner for many years, and we look forward to working with them in this expanded role.”

February 12-14th, SCI will be attending the 2007 BAI TransPay Conference & Expo in Orlando, Florida, and will be demonstrating solutions from the IBM Payment Solutions Group. To learn more about how the new IBM-SCI relationship can help your organization, please stop by SCI’s booth (409) during this conference.

About IBM Payments Director

The IBM Payments Director suite comprises software and services modules that allow financial institutions to design fully automated, straight-through-processing systems. It includes components for the entire process of digitizing checks, from capture to exchange to posting, including image exchange, image quality analysis, check-to-ACH-conversion, and workflow management.
